

Important Information

All permit application forms must be printed on legal size paper (8 1/2" x 14"). Reduced size copies (printed on letter paper) are not acceptable because ample room is needed for handwritten notations on the applications by office staff.

Any forms that have a colored background must be printed in color.

Color printouts are necessary because the Division uses a color coding system.

Type in information on screen and print out. Print page 6 in color on letter size paper, and pages 7 and 8 in color on legal size paper.

Sign and have notarized where required.

Applications are not accepted by email.

Checklist for Building Permit Application for New Buildings or Structures

Includes: Single Family Dwellings, Two-family Dwellings, Swimming Pools, Tennis Courts, Sheds

THE FOLLOWING IS REQUIRED FOR ZONING REVIEW AND APPROVAL:

- SURVEY MAP (aka PLOT PLAN):** Two (2) copies of a Class A-2 survey prepared by a Connecticut licensed land surveyor must be submitted with every New Building Permit Application. The new building or structure must be drawn to scale on the survey map/plot plan and all setback distances to the front, rear and side yards indicated. All must be shown clearly. The right-of-way width (not pavement width) of each street/road/private road, etc. must be shown on the survey map/plot plan by the land surveyor. Any survey maps/plot plans drawn by anyone other than a Connecticut licensed land surveyor or civil engineer will not be accepted. The Town of Greenwich reserves the right to require a new updated survey map/plot plan at its discretion. Flood Zones as determined by the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must be shown on the survey map/plot plan when applicable.
- COASTAL SITE PLAN APPROVAL:** An application for Coastal Site Plan approval must be submitted and approved by the Planning and Zoning/Coastal Area Management (CAM) office prior to filing a New Building or Structure Permit Application if any portion of the property is within the Flood Hazard Overlay Zone.
- FLOOD HAZARD OVERLAY ZONE ELEVATION:** A minimum elevation as shown on the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must be shown for the basement floor and the first floor by a Connecticut licensed land surveyor or professional engineer when applicable.
- APPLICATION FOR A STREET NUMBER:** If a lot has previously been undeveloped a number must be obtained from the Planning and Zoning Commission, prior to filing for a New Building or Structure Permit.
- GRADE PLANE CALCULATION:** A grade plane calculation prepared by a Connecticut licensed land surveyor or civil engineer. The report must contain the proposed basement floor elevation, the proposed first floor elevation (not sill elevation), the grade plane elevation, and the percentage of the finished floor above the basement which is more than 5'-0" above the final grade at the wall of the building. Accompanying that report there must be a graphic representation illustrating the proposed foundation and the grade plane envelope and elevations which were used to calculate both grade plane and foundation wall elevations. (See Sec. 6-5 (a) (26) and diagram appendix - diagram 1 Building Zone Regulations).
- SOIL EROSION AND SEDIMENTATION CONTROL AND TREE PROTECTION PLAN:** A soil erosion and sediment control plan shall be submitted to the Planning and Zoning Commission for any development when the disturbed area of such development is one-half acre or more. In the event that such development requires the submission of an application under site plan, special permit, subdivision or inland wetland regulations, then the soil erosion and sedimentation plan shall be submitted as part of that application. Development activities accessory to the construction of a single family dwelling, such as but not limited to tennis courts, swimming pools, driveways and septic systems, shall require the same soil erosion and sedimentation control plan submission.
- FLOOR AREA RATIO (F.A.R.):** The applicant must complete the Zoning F.A.R. calculations on the back of the application. The square feet of building area is determined by physical measurement of all existing buildings on the property. The Town's Tax Assessor card information is not acceptable. When the proposed F.A.R. equals or exceeds 90% of the maximum allowable F.A.R. detailed information is required. Floor plans for each level of the structure prepared at 1/4" = 1' scale bearing full dimensions and illustrating (by overlaid red line quadrangles) the calculated areas must be provided. The F.A.R. for a property includes accessory structures such as sheds, barns, and garages and the size(s) of those building(s) must be provided.

Checklist for Building Permit Application for New Buildings or Structures

Includes: Single Family Dwellings, Two-family Dwellings, Swimming Pools, Tennis Courts, Sheds

THE FOLLOWING IS REQUIRED PRIOR TO THE ACCEPTANCE OF THE BUILDING PERMIT FEE AND PERMIT APPLICATION:

- BUILDING PERMIT APPLICATION FORM (printed on white paper):** The current property owner must sign the back of the application. If the property owner chooses someone other than themselves to be the Builder/Permittee/Owner's Agent, then the property owner must have their signature notarized, authorizing the owner's agent to act on his behalf. If the property owner will be the Builder/Permittee, then the property owner's signature does not need to be notarized.
- WORKER'S COMPENSATION COVERAGE AFFIDAVIT:** This affidavit must be filed with every New Building Permit Application. It must be filled out by the Permittee listed on the Building Permit Application form and the signature on the affidavit must be notarized. The affidavit required is available only through the Town's Building Inspection Division. Certificates of Insurance are not acceptable.
- CONSTRUCTION PLANS:** Two (2) complete sets of plans must be submitted with every New Building Permit Application. Construction plans must include elevations, floor plans including attics and basements (labeling all rooms with proposed use), a foundation plan, framing plan, a section or sections through the proposed structure and specifications and dimensions of materials. All plans must be drawn to scale, fully dimensioned, and of sufficient clarity to indicate the nature and extent of all work proposed. The Town of Greenwich reserves the right to require the applicant to provide additional information at its discretion and may require that plans be certified and stamped by a Connecticut registered architect or Professional Engineer. All plans prepared and designed by a professional engineer are required to bear the seal of a CT registered P.E.
- ENERGY CONSERVATION:** The applicant for any new, heated structure must submit evidence of compliance with the Model Energy Code, 1995 edition, Council of American Building Officials, with his/her application for a New Building or Structure Permit. MECheck analysis are acceptable.
- SEWER PERMIT:** A sewer connection permit must be obtained from the Sewer Division of the Town's Department of Public Works prior to filing a New Building Permit Application when connecting/re-connecting to Town sewers.
- DEPARTMENT OF HEALTH:** Approval by the Department of Health must be obtained prior to filing any New Building Permit Application, regardless of the location or type of structure proposed, if the property is served by a septic system or a well.
- INLAND WETLANDS AND WATERCOURSES AGENCY QUESTIONNAIRE:** An Inland Wetlands and Watercourse Agency questionnaire must be filed with every New Building Permit Application. The questionnaire is not an authorization to proceed with work nor is issuance of a Building Permit an authorization to begin work. If wetlands, as determined by the IWWA are present, separate wetlands approval is required. If an IWWA application has been previously submitted and approved by the IWWA, copies must be submitted with the New Building Permit Application. This IWWA approval can be submitted in place of the IWWA Questionnaire.
- STREET OPENING PERMIT:** A street opening permit must be obtained from the Town's Highway Maintenance Division for any new driveways or changes to any existing driveway entering/exiting from a public street prior to filing an application for a New Building Permit.
- TAX ACCOUNT NUMBER:** Available from the Tax Assessor Office for the property listed on the New Building or Structure Permit Application.
- TAX COLLECTOR:** You must receive approval of the Tax Collector's Office (Permit Application Forms will be stamped by the Tax Collector) that there are no unpaid property taxes prior to filing a New Building or Structure Permit Application.
- CONTRACTOR'S REGISTRATION CARD:** Any new dwelling requires that either the current property owner or a Connecticut licensed New Home Builder be the permittee. Home Improvement Contractors may not file for a new dwelling permit. The actual license or current copy thereof must accompany each and every application for a New Building or Structure Permit.

Checklist for Building Permit Application for New Buildings or Structures

Includes: Single Family Dwellings, Two-family Dwellings, Swimming Pools, Tennis Courts, Sheds

- BUILDING PERMIT FEE:** The valuation of work stated on the New Building or Structure Application is based on fair market value of all construction costs, including labor, materials, electrical, plumbing/HVAC, etc. The fee is \$12.00 per \$1,000 valuation for 1 & 2 family dwellings and \$12.00 per \$1,000 for all others (value is rounded to nearest \$1,000). The minimum fee is \$40.00. The Town of Greenwich reserves the right to adjust the stated valuation of work, if, in the opinion of the Town's Building Official, the work proposed is under-valued. It is recommended that the permit fee check not be filled in until the Town determines that the valuation is acceptable. All checks must be payable to the Town of Greenwich. Exact amount in cash is acceptable. Credit cards are not accepted.

NOTES:

The building permit and one (1) set of approved plans will be mailed to the permittee or the permittee will be called to pick up the permit, depending on which is selected by the permittee. No work is permitted until you receive the building permit and the approved plans. The building permit must be posted conspicuously on site and the approved plans must be available on site at all times for inspection until a Certificate of Occupancy / Compliance is obtained. Failure to have the original approved plans on the site may result in refusal of inspection(s).

All permits for a new building or structure are issued with the condition that a new survey map/plot plan bearing the seal of a Connecticut licensed land surveyor be submitted to the Building Inspection Division indicating the as-built location of the foundation prior to the beginning of framing in accordance with Section 6-12 of the Town's Building Zone Regulations. Failure to comply will result in refusal of inspections and issuance of a stop work order. After the new as-built foundation survey map/plot plan is approved a full permit will be issued and framing may proceed.

An Excavation, Filling, & Removal of Earth Material Permit must be obtained from the Engineering Division of the Town's Commissioner of Public Works for any fill/removal in excess of five hundred (500) cubic yards of material whether generated off-site or on-site. This permit is only required when the excavation or fill operation is not associated with the construction of a building or structure.

All permit applications must be presented in person only. Mailed, faxed, emailed etc. applications will not be accepted.

Please direct any questions, to the Building Inspection Division, 2nd Floor, Town Hall, 101 Field Point Road, Greenwich, CT 06830 – telephone: (203) 622-7754 or fax: (203) 622-7848.

WORKERS' COMPENSATION COVERAGE AFFIDAVIT

In accordance with Public Act 96-216, Section 4, effective June 4, 1996 and as Permittee on the project listed below I hereby choose the following option to verify compliance with the above stated Connecticut Workers' Compensation Laws (Select ONLY one):

PROJECT IDENTIFICATION:

PROPERTY OWNER(S) _____
 STREET ADDRESS _____
 APT/UNIT NO. _____ SECTION OF TOWN _____ CT _____
 DESCRIPTION OF WORK _____

HOMEOWNER:
 I, _____, the owner of the above described property will be acting as General Contractor on this project, and hereby swear and attest that I will require proof of Workers' Compensation Insurance from each and every subcontractor or other worker before he/she engages in work on my property for this project.

SOLE PROPRIETOR:
 I, _____, the contractor working on the above referenced project claim exemption from Public Act 96-216 as a sole proprietor and do not intend to act as a general contractor or principal employer on this project. I understand that this means I am not engaging anyone to work under me on this project.

CONTRACTOR:
 I, _____, intend to act as a general contractor on the above referenced project and hereby swear and attest that I will require proof of Workers' Compensation Insurance from all subcontractors and all other workers employed on this job site. I understand it is my responsibility to insure compliance with the CT Workers' Compensation Laws on this project.

CORPORATE OFFICER OR BUSINESS PARTNER:
 I, _____, claim exemption for myself from the CT Workers' Compensation Laws by obtaining a certificate of exemption from the Workers' Compensation Commission. I am submitting verification of same by the following:

- Certificate of Insurance (must be attached)
- Commission's exemption certificate (must be attached).

I understand this exempts only myself and I hereby swear and attest that I will require proof of Workers' Compensation Insurance from all subcontractors and all other workers employed on this project.

In accordance with Public ACR 96-216, Section 4, I hereby state that I fully understand that every person employed or engaged to perform services on this construction site (including sole proprietors, independent contractors, and both owners and employees of subcontracting companies), are required to have Workers' Compensation Insurance. I also understand that there are new significant penalties under the Workers' Compensation Laws for misrepresenting one's employer status.

(Signed) _____ date _____

Subscribed and sworn to before me on this _____ day of _____, 20_____

Inland Wetlands & Watercourses Agency Questionnaire

Before obtaining any building permit, as a requirement, you will need to fill out a “Green Sheet” Questionnaire and submit it to the Wetlands Department. This form can be found in the Land Use Department, 2nd Floor of Town Hall or by visiting the Inland Wetlands website link below.

http://greenwichct.virtualtownhall.net/Public_Documents/GreenwichCT_Wetland/forms/index

How to Properly Fill Out a Pool, Spa, Hot Tub Permit Application

APPLICATION FOR BOTH THE POOL, SPA, HOT TUB AND THE REQUIRED SAFETY BARRIER.

Below is a sample of a Pool, Spa, Hot Tub Permit Application with notations as to how to properly fill out parts of the form where errors or omissions are most common.

[See checklist for more detailed information.](#)

Side 1

1 Obtain Parcel ID # of property where pool is proposed from Tax Assessor's Office or from your property tax bill.

2 Owner of property where construction is proposed. Address of property owner.

3 Builder/Permittee is person filing for permit. If owner is filing, he/she must fill in this information. If other than owner list CT Registration No. Person who signs on as permittee shall be responsible for insuring that pool/spa/hot tub safety barrier is installed. Name in this section shall match name in item #16 on back of this form.

4 List person(s) responsible for preparing plans and specs for new pool. If applicable, list architect or P.E. who prepared plans.

5 Address of property where pool/spa/hot tub is proposed.

6 This section is important to ensure that our inspectors can locate the property.

7 Indicate section of town. If not sure, ask Building Division staff.

8 For use by Building Division staff.

9 Fill in pool information and check appropriate boxes.

10 Check boxes if a spa or hot tub is proposed. If not, leave blank.

11 Check all appropriate boxes for enclosure.
Note: Person listed under item #3 is responsible for coordinating construction of the pool safety barrier(s).

12 If applicant is not sure of code information, ask staff for assistance.

13 Applicant must check appropriate box indicating type of sewage disposal on property where pool or spa is proposed.

14 Value of work includes cost of pool, pool equipment (including underground water, electricity or gas lines) and safety barrier. Permit fee based on following: \$12/\$1,000 of value for pools accessory to 1 or 2 family dwellings. \$12/\$1,000 of value for all other pools.

15 Have form stamped at Tax Collector's Office verifying taxes are paid. **APPLICATION WILL NOT BE ACCEPTED WITHOUT STAMP.** The rest of this section is for Office Use only.

16 Printed name and signature of person listed under item #3. If person listed under item #3 is owner, than this section can be left blank.

17 If Builder/Permittee (items #3 and #16) is someone other than the owner, **OWNER MUST SIGN HERE AND HAVE SIGNATURE NOTARIZED. IF OWNER IS PERMITTEE (ITEM #3) THIS SECTION MUST STILL BE FILLED OUT AND OWNER'S SIGNATURE NOTARIZED** since it is an affidavit acknowledging responsibility for the erection of the safety barrier.
