Venus Clinic Mission

To promote the physical and social well-being of adults by providing individual counseling and confidential medical services to assist them in making healthy decisions.

The Venus Clinic provides services for adults in a non-judgmental and relaxed atmosphere.

We recognize the multiple issues facing adults. These can be complicated, emotionally painful and sometimes controversial. Our goal is to provide accurate information, teach problem solving skills, and reinforce positive healthy choices. The services help contribute to better informed and healthier individuals.

What We Offer:

- STD testing, counseling and prevention. We provide a safe, friendly and non-judgmental, confidential way to connect with someone who cares.
- Pregnancy testing and counseling.
- Education and support for pregnant clients.
- Referrals to therapists for persons of all ages for depression, alcohol and chemical dependency.
- Sexuality education and teaching sexual responsibility for all ages.
- Clinical counseling on birth control methods.
- We offer educational programs in the clinic as well as at schools, businesses, churches and for other community groups.

You are not alone

19 million STD cases occur every year in the U.S. Many STDs don't have symptoms for six months to a year.

Be SAFE. Get TESTED.

It's EASY.

You are free to talk about

Relationships, Alcohol, Drugs and Depression. Clinic staff offers referrals to appropriate Counseling.
