

TICKS

**Deer ticks carry the bacteria that cause
LYME DISEASE**

And other tick-borne diseases such as Ehrlichiosis and Babesiosis.

***PROTECT YOURSELF,
YOUR FAMILIES AND YOUR PETS.***

Reduce your risk of exposure to ticks:

Avoid tick habitats.

Wear light colored pants and long sleeved shirts.

Check yourself for ticks after being in tick habitats.

Use insect repellents according to directions.

Consider appropriate property management to reduce tick abundance around your home.

Landscape your yard to reduce tick habitats.

If bitten by a tick, consult a health care professional.

**The Greenwich Department of Health Laboratory
offers tick identification and testing services.**

Ground Floor - Town Hall
Monday - Friday 8 AM - 3PM
