September 16, 2009

Dear future member of Team Greenwich,

This year, the Greenwich Department of Health has formed Team Greenwich, with partners Lin Lavery, Selectman, and Melissa Evans of the Department of Public Works to take part in the American Cancer Society Making Strides Against Breast Cancer, and we're hoping you'll join us. We know there are a lot of breast cancer events out there, but Making Strides is a great choice because funds raised enable the American Cancer Society to help people stay well, get well from breast cancer, find cures, and empower people to fight back at the local, state, and federal level. With your help, we can save lives.

We would like you to join us in walking "Making Strides," so please visit our team page. The first 15 people who sign up to join us to walk will receive a Team Greenwich t-shirt. Every member of Team Greenwich will receive a pin to remember the day. If you already have plans that day, we hope you'll still support our efforts by making a donation of any amount you can spare.

http://main.acsevents.org/site/TR/MakingStridesAgainstBreastCancer/MSABCFY10NewEngland?team_id=550296&pg=team&fr_id=19932&fl=en_US&et=oRByoYYH7RLhcJnG-fqN0w..&s_tafId=360839

When you walk and make donation...

- More people in our community will have the information and tools they need to help prevent breast cancer or find it early.
- More people with breast cancer will have a place to turn - day or night - to help them through every step of their cancer journey. It might be a ride to treatment, free lodging at a Hope Lodge (there is a brand new one in Boston), or help finding a clinical trial or affordable insurance. Cancer information specialists are available 24/7, 365 days a year at: 1.800.227.2345.
- More progress will be made toward finding breast cancer's causes and cures. The American Cancer Society has played a role in nearly every major breast cancer breakthrough of the last century, which have led to the discovery of lifesaving breast cancer treatments like Tamoxifen and Herceptin. You will help us find more.
- More women – like our own mothers, daughters, sisters, aunts, and grandmothers – will have access to lifesaving mammograms and the treatment they need.

Each of us has our own reasons for caring about the fight against breast cancer. Whatever your reasons, I hope you'll choose to make a difference by signing up to walk with us or by making a donation online.

Sincerely,

Caroline Baisley
